**ALTERNATIVE AGRICULTURE AND FOREST PRODUCTS LTD. STI.
FOOD SAFETY POLICY**

As a leading producer of oilseeds and spices, Alternative Agriculture and Forest Products Ltd. Sti. is committed to ensuring the highest standards of food safety and quality in the products we process and package in our facility in Torbalı District of Izmir province;

Recognizing the unique challenges in the production and handling of food ingredients, we establish the following food safety policy:

- We pledge to comply with national and international food safety regulations specific to oilseeds and spices. Our products will consistently meet or exceed these stringent standards.
- Implement stringent protocols for the storage of raw materials received from manufacturers and suppliers. Ensure that all oilseeds and spices are stored in conditions that prevent contamination, spoilage, and degradation. This includes controlling factors like temperature, humidity, and light exposure, which are critical for preserving the quality and safety of our products.
- Conduct regular inspections of storage facilities to identify and address any potential risks, such as pest infestation or cross-contamination.
- Train staff responsible for receiving and storing raw materials on specific handling and storage requirements unique to each type of oilseed and spice.
- Ensure the participation of employees by carrying out food safety culture studies every year.
- Regularly audit and assess the storage practices of our suppliers to ensure they also adhere to high standards of food safety and quality. Maintain a strong traceability system to track the journey of every batch of oilseeds and spices from source to final product.
- Develop detailed emergency response and recall plans, tailored to address specific risks associated with oilseeds and spices. Ensure prompt action and transparency in the event of any safety incidents.
- Take necessary precautions to ensure employee health and safety by continuous signage innovations and training to ensure that employees comply completely.
- Provide guidance to consumers on the proper storage and handling of oilseeds and spices to maintain quality and safety.
- Engage with consumers to gather feedback and address concerns about food safety.

By adhering to this policy, Alternative Agriculture and Forest Products Ltd. Sti. demonstrates its unwavering commitment to delivering safe, high-quality oilseed and spice products. We understand the critical role food safety plays in protecting our consumers and upholding our reputation in the industry.

MUHAMMET ÖZTÜRK, Managing Partner and Executive Director
