

ALTERNATIF AGRICULTURE AND FOREST PRODUCTS LTD. STI. ENVIRONMENTAL POLICY

Alternatif Agricultural Products Ltd. Sti. recognizes the significant impact our business may have on the environment. In an era where environmental sustainability is not just a choice but a necessity, we are committed to actively reducing our ecological footprint and promoting environmental stewardship. We acknowledge that our operations, from manufacturing to distribution of oilseeds and spices, have a direct and indirect impact on the environment. This includes resource consumption, waste generation, and emissions.

We believe that environmental responsibility is a shared duty. We are committed to educating and engaging our employees in our environmental efforts. Furthermore, we aim to work collaboratively with the communities we operate in, contributing positively to local environmental initiatives.

Our journey towards environmental sustainability is ongoing. We pledge to regularly review and improve our environmental policies and procedures, adapting our strategies to meet emerging challenges and opportunities. We will maintain transparency with our stakeholders, reporting on our progress and learning from our experiences.

We are dedicated to adhering to our comprehensive environmental policy, which outlines clear goals and actions to minimize our environment:

- Compliance with all environmental laws and regulations.
- Protect natural resources. Reduction of waste and promotion of recycling and reuse initiatives.
- Efficient use of resources, including energy and water.
- Transition to sustainable materials and practices in our operations.
- Collaboration with suppliers and partners who share our environmental values.
- Continuously improve our environmental policies and procedures with an environmental management system that minimizes the impact of our production activities on the environment.
- Contribute to increasing the environmental awareness of employees and society,

At, Alternatif Agricultural Products Ltd., we understand that protecting the environment is integral to the health and well-being of our communities, our customers, and the planet. We are committed to work with all our strength as a leading organization with a firm dedication to environmental awareness and sustainable agriculture.

We are devoted to being a positive force for environmental change in the field of spice and oilseeds production by carrying out our activities in an integrated manner with quality, energy, occupational health and safety management systems.

MUHAMMET ÖZTÜRK, Managing Partner and Executive Director
